TABLE OF CONTENTS

Maria Paluch <i>Surface potential at the water-air interface</i>	1
Ilona Sadok, Katarzyna Tyszczyk-Rotko and Agnieszka Szwagierek <i>New Applications of Boron-Doped Diamond Electrode for Voltammetric Determination of Ascorbic Acid</i>	13
Ganesamoorthy Thirunarayanan, Inasekaran Muthuvel and Vasudevan Sathiyendiran <i>Spectral LFER studies in some N-(substituted phenyl) formamides</i>	31
Patrycja Krasucka and Jacek Goworek <i>MCM-41 silica as a host material for controlled drug delivery systems</i>	45
Marzena Cejner and Ryszard Dobrowolski <i>Ion-imprinted polymers: synthesis, characterization and applications</i>	67
Joanna Szewczyk, Michał P. Dybowski and Andrzej L. Dawidowicz <i>Application of SPE for selective fractionation of essential oils constituents from plant materials</i>	87
Renganathan Vijayakumar, Rajamohan Senbagam, Murugan Rajarajan, Selvaraj Balaji, Venkatesan Manikandan, Ganesan Vanangamudi and Ganesamoorthy Thirunarayanan <i>Synthesis, spectral correlation analysis and evaluation of biological activities of some substituted hydrazones</i>	103

Małgorzata Olszowy <i>The influence of water on the estimation of antioxidant properties of essential oils</i>	125
Michał P. Dybowski, Rafał Typek, Katarzyna Bernacik and Andrzej L. Dawidowicz <i>Isomerization of bitter acids during the brewing process</i>	137
Mariusz Barczak <i>Mesoporous silica functionalized with phenylamino and gluconamide groups: synthesis, characterization and use for sorption of diclofenac</i>	145
Marzena Cejner, Ryszard Dobrowolski and Joanna Reszko-Zygmunt <i>Determination of selected trace metals (Cr, Ni, Pb and Cd) in soils by slurry sampling GF AAS</i>	157
Rajamohan Senbagam, Ganesan Vanangamudi and Ganesamoorthy Thirunarayanan <i>Synthesis, Assessment of substituent effect and Antimicrobial activities of some substituted (E)-N-benzylidene-5- -bromopyridin-2-amines</i>	169
