The papers in this volume are dedicated to Professor Eligiusz J. Zlotkiewicz, on the occasion of his sixtieth birthday, by his friends, students, and colleagues.

Eligiusz J. Zlotkiewicz is an outstanding academic teacher and research worker. His ability in posing new problems and willingness to cooperate with other mathematicians and graduate students resulted in numerous joint papers, as well as in six Ph.D. theses written under his direction. He was also very successful as an administrator acting as the chairman of the Mathematics Department and the dean of the Faculty.

With best wishes of a Happy Birthday

– *The Editors*

Eligun Uster
