Janusz GODULA (Lublin)
Viktor STARKOV (Karelia)

Erratum to the paper "Estimates of Constants Connected with linearly invariant families of functions"
(Annales Univ. Mariae Curie-Skłodowska, Sect.A, 48(1994), 43-51)

A computational mistake appeared in the paper.

In Theorem 1.2 the conditions for the parameter μ should be written in the following form: "$\mu \neq 2(1 - \alpha)^{-1}$, $|\mu| \geq (\alpha - 1)^{-1}$ and $|\mu(\alpha-1)+2| > 1$". Moreover, the last sentence in the proof should has the form: "By the result of W.C. Royster ([8]) we get $h_{\mu(1-\alpha)/2} \notin S$, if $|\mu|(\alpha - 1) > 1$ and $|\mu(\alpha - 1) + 2| > 1$".
